Special Issue: Call for Papers!

Spring 2021

The CATESOL Journal is accepting proposals for the Spring 2021 special issue on **pandemic pedagogy**. We are interested in articles that address teaching or tutoring ESL during the time of Covid-19. Only articles with direct relevance to our California readership will be considered. Interested authors should consider submitting articles with clear pedagogical implications for ESL instruction in K-12, undergraduate, graduate, and/or other contexts.

More information will be posted at CATESOL.org in August 2020.
